

# Automate and Augment Debt Collection With Skit's Digital Voice Agent

## Highlight

Skit's Debt Collection Agent is a highly configurable, off-the-shelf Digital Voice Agent, built to manage high-volume debt collection voice calls. With this, you can offload simple but cognitively repetitive calls to the digital agent, freeing up human bandwidth. The application comes with the required set of integrations such as CRM, payment gateways, and SMS and can be configured to meet all federal and state debt collection rules and regulations.

## How it Works
